HUNGARIAN STATISTICAL SURVEY OF BUSINESS ESTABLISHMENTS

The Council of Ministers recently decreed the preparation of an annual statistical survey of merchants and business establishments. Statistics will be collected separately on each commercial establishment in the several cities and towns. The collection of statistics is the responsibility of the local councils, and each merchant, businessman, or manager of a commercial establishment is responsible for furnishing the required data.

Enterprises which furnish regular monthly statistical information to the Central Statistical Office, artisans' cooperatives which are members of the National Artisans' Association, migrant and part-time artisans, and occasional market vendors will not be required to furnish data.

The time and detailed subject matter of the survey will be announced by the Central Statistical Office. Data will be gathered by a statistical field force, and the collection of data will be supervised by area inspectors, the local councils, and the Central Statistical Office.

Data collected in this survey may be obtained by interested agencies through the Central Statistical Office only. It is not permitted to approach local agencies for statistical information except through the Central Statistical Office.
